Kata Pengantar

Komoditas perkebunan merupakan andalan bagi pendapatan nasional dan devisa negara Indonesia, yang dapat dilihat dari nilai ekspor komoditas perkebunan, pada Tahun 2016 total ekspor perkebunan mencapai US\$ 22,118 milyar atau setara dengan Rp. 287,534 triliun (asumsi 1 US \$=Rp.13.000). Kontribusi sub sektor perkebunan terhadap perekonomian nasional semakin meningkat dan diharapkan dapat memperkokoh pembangunan perkebunan secara menyeluruh. Agar informasi perkebunan dapat tersebar secara luas, setiap tahun diterbitkan Buku Statistik Perkebunan Indonesia yang menyajikan data secara handal, sah, objektif, mutakhir dan konsisten.

Statistik Perkebunan Indonesia Tahun 2016-2018 menyajikan data luas areal, produksi, produktivitas baik secara nasional maupun provinsi menurut status pengusahaannya yaitu Perkebunan Rakyat, Perkebunan Besar Negara dan Perkebunan Besar Swasta. Penyajian data juga dilengkapi dengan data ekspor dan impor untuk masing-masing komoditas yang mencakup negara tujuan/asal, volume dan nilai, harga di dalam dan luar negeri serta untuk beberapa komoditas tertentu disajikan data keseimbangan dunia.

Data yang disajikan merupakan hasil sinkronisasi dan validasi data statistik perkebunan 2016-2018 yang dilaksanakan secara berjenjang dari tingkat kabupaten sampai tingkat nasional dengan mengacu pada Pedoman Pengelolaan Data Komoditas Perkebunan yang diterbitkan Direktorat Jenderal Perkebunan. Data tersebut meliputi angka tetap (ATAP) Tahun 2016, angka sementara (ASEM) Tahun 2017 dan angka estimasi (AESTI) Tahun 2018. Data yang disajikan bersumber dari data primer yang dikumpulkan dari dinas yang membidangi perkebunan di provinsi dan data sekunder yang dikutip dari data yang diterbitkan oleh Badan Pusat Statistik (BPS), Kementerian Perindustrian, Kementerian Perdagangan, Bank Indonesia, dan publikasi yang diterbitkan oleh asosiasi-asosiasi perkebunan baik dalam maupun luar negeri.

Buku ini dapat diterbitkan, atas dukungan dan kerjasama yang baik dari berbagai pihak. Untuk itu, pada kesempatan ini, kami mengucapkan terima kasih atas dukungan dan kerjasama tersebut. Kami menyadari bahwa buku yang diterbitkan ini belum sempurna. Untuk itu, kritik dan saran yang sifatnya membangun sangat diharapkan sebagai bahan masukan dalam perbaikan penerbitan di masa datang.

Publikasi ini disajikan tidak hanya dalam bentuk hard copy namun dapat dengan mudah diperoleh atau diakses melalui website Direktorat Jenderal Perkebunan di alamat <http://ditjenbun.pertanian.go.id>.

Semoga apa yang disajikan dalam buku ini dapat digunakan oleh berbagai kalangan dan para pengguna data serta dapat dijadikan acuan dalam pengambilan kebijakan.

Preface

The estate crop commodities is the mainstay of national income and Indonesia's foreign exchange which can be seen from export value of the estate crop commodities. In 2016, total export of the estate crops was US \$ 22.188 billion or equivalent to Rp. 287.534 trillion (assumed 1 US \$ = Rp. 13,000). The contribution of estate crops sub sector to the national economy tends to increase from year to year and expected to strengthen overall national development. Furthermore, to spread estate crops information widely, *The Estate Crop Statistics of Indonesia* is published every year that presented reliable, valid, objective, up to date and consistent data.

The *Estate Crop Statistics of Indonesia 2016 - 2018* presents area, production and productivity data by province and district level of smallholder, government and private estates. It is completed by volume, value of both export and import data, price data for domestic and world market and also world balance data for some commodities.

Data presented are the result of synchronization and validation of the estate crop statistical data 2016-2018 which are held hierarchical from the district to the national level by using guidelines of data management of estate crop commodities. In this edition, data of the 2016 are presented as fixed data, data of the 2017 are the preliminary data and data of the 2018 are the estimation. The primary data were collected from the Estate Crops Province Level and the secondary data were collected from related institution such as Board of Central Statistics, Ministry of Industry, Ministry of Trade, Central Bank of Indonesia, the publication of Estate Commodity Associations and others.

It would have been impossible to compile this book without substantial support and contribution from many institutions. At this opportunity, we would like to thank all for support and cooperation. We realize that the publication still needs further improvement. We would greatly appreciate comments and suggestions for future improvement.

This publication is presented not only in hard copy but also can be easily obtained or accessible through website of the Directorate General of Estate Crops at address <http://ditjenbun.pertanian.go.id>

Hopefully this publication will have high values for users and references for policy makers.
