Cabai Rawit Varietas Prima Agrihorti

Prima Agrihorti Cayenne Pepper Variety

Inventor : Yenni Kusandriani

Balai Penelitian Tanaman Sayuran

Indonesian Vegetables Research Institute

Status Perlindungan HKI : Pendaftaran Varietas No. 26/Peng/09/2015

PVP Protection Status : No. 26/Peng/09/2015

Cabai Rawit Prima Agrihorti berpotensi untuk dikembangkan di sentra produksi terutama di daerah dataran tinggi, karena varietas ini mempunyai adaptasi baik di dataran tinggi. Keunggulan dari varietas ini adalah daya hasil tinggi yaitu mencapai 20 ton/ha dengan tingkat kepedasan 610 ppm. Warna buah cabai pada saat muda kuning kehijauan dan pada saat tua berwarna merah oranye. Varietas ini telah dilisensi secara non eksklusif oleh Koperasi Produsen Kisingasari Kawali Mukti selama 5 tahun (2016 - 2021). Pengembangan oleh swasta diharapkan dapat mempercepat perluasan adopsi Cabai Rawit varietas Prima Agrihorti di masyarakat, sekaligus mengatasi masalah fluktuasi harga cabai rawit yang tinggi di pasaran.

Prima Agrihorti cayenne pepper variety has the potential to be developed in production centers, especially in highland areas, because this variety can adapt well in the highlands. The advantages of this variety are high yield that reaches 20 tons/ha with level of spiciness 610 ppm. The fruit has yellowish green color, and when older it will turn into red orange color. This variety has been licensed non exclusively by Kisingasari Kawali Mukti Cooperative for 5 years (2016 - 2021). Development by the private sector is expected to accelerate the expansion of the adoption of this variety in the community, as well as to overcome the high price fluctuation problem in the market.
